

Severe Air Pollution & Wildfire Smoke Emergency Protocol

Document ID: REF-EMG-2024

Source: National Emergency Management Agency

Topic: Emergency Protocols for Wildfire Smoke and Industrial Pollution Disasters

Emergency Response Action Steps:

1. Hazardous AQI (AQI > 300): Activate emergency clean air shelters.
2. Clean Room Setup: Designate an interior room with zero windows or single sealed window; run continuous air filtration.
3. Mask Mandate: Fit-tested N95, KN95, or elastomeric respirators required for any necessary brief outdoor travel.
4. HVAC Isolation: Close fresh air intakes on building ventilation systems immediately.
5. Health Triage: Seek emergency medical care immediately for severe shortness of breath, persistent chest pain, or other acute symptoms.
